## Medical Plans

AFFORDABLE | USABLE | HIGH VALUE

### WHAT IS A MEC PLAN?

The Affordable Care Act states that all individuals must have health benefits or they are subject to fines/penalties. A Minimum Essential Coverage plan satisfies the penalty by offering 100% coverage on preventative and wellness care. A full list of covered services has been included.

### WHY OPTIONS PLUS?

Our MEC Plans are high value plans, which include all the coverage of a basic MEC Plan, but with much richer benefits to create a usable and affordable plan that is much closer to traditional health insurance - without the high cost.
